Research Papers

ABOUT iCDEM 2027

iCDEM 2027 aims to bring together leading scientists, researchers, engineers, and industry experts working on diamond and emergent materials. The conference will foster discussions, collaborations, and innovations driving the future of materials science and technology.

[KNOW MORE ABOUT US >](#)

IMPORTANT DATES

Abstract Submission
31 AUGUST 2026

Acceptance Notification
30 SEPTEMBER 2026

Early Bird Registration
31 OCTOBER 2026

Conference Dates
27 - 29 JANUARY 2027

RESEARCH TOPICS

Diamond Materials
and Devices

Accercent Materials

Quantum Materials
and Technologies

Wide Bandgap
Semiconductors

Space and Extreme
Environment Materials

Advanced Characterization
and Modelling

Energy and
Sustainable Materials

Applications and
Industry Innovations

KEYNOTE SPEAKERS

Prof. M. Meyyappan
NASA Ames Research Center,
USA
Fellow, AAAAS, APS

Prof. Ken Haenen
University of Glasgow,
UK
Expert in Diamond Electronics

Prof. Susanne Simon
Forschungszentrum Jülich,
Germany
Diamond Quantum Materials
